

Federally Qualified Health Centers (“FQHCs”) are primary care physician offices, and many offer additional services like dental care, pediatrics, or behavioral health. With the advent of the Affordable Care Act, most FQHCs received funding from the Health Resources & Services Administration (HRSA) to conduct outreach and enrollment activities to promote the new Health Insurance Marketplace. Virginia’s FQHCs operate in over 140 sites located throughout the Commonwealth, and offer a sliding fee payment scale for patients.
